ABOUT TRUETT

From Creating to Curating Truett Fink, the founder and artist behind Truett Designs has an amazing eye for design. That is apparent in her beautiful line of textiles, pillows and decor all created and designed from her original paintings. She is inspired from her travels, nature and stories of her personal history. Truett loves to curate collections and designs that blend old with new, and that work with the most traditional style to the most modern of designs.

PRODUCT

At Truett Designs, the creative process isn't something we fabricate or force to produce more products. As artists, we infuse the fine arts of painting into our work, making each piece its own unique work of art.

We are committed to pieces that are as quality as they are beautiful! Our luxurious fabrics are chosen for their amazing hand, and the fact they all are machine washable. Each of our pieces is sustainably handcrafted by our team of artisans in England. Rather than produce our works of art in a factory, we take pride in the seamstresses who pour their hearts and souls into each one of our handmade to order pieces.

TRUETT
DESIGNS

Truett Fink's passion for painting doesn't always result in brushstrokes on paper. The Alabama artist aims to create pieces that are impossible to forget. Based on her travels, her textiles take an artist-first approach that makes them stand out home accessories. truett designs.com

Julie Dasher

Julie Dasher wants to do more than create beautiful interiors. She also wants to create beautiful lives. As the founder of her eponymous, Arizona-based company, Dasher collaborates with female weavers across the globe to produce rugs of world-class quality. By pairing her zeal for bold textiles with the brand's drive for improving women's lives internationally, her custom rugs transform tradition. juledasherugs.com

DECO & DECO

Deco & Deco proves that when it comes to decorative hardware, function and form were meant to team up. True to its namesake, the Murano collection features glass that's blown by artisans in Italy and is a lesson in timelessness through the lens of luxury and dazzle. The company's inventory also includes cabinet and bathroom hardware that is sure to add a memorable statement to interiors. decoanddeco.com

Southern
Tribute

A global pandemic may have temporarily halted social gatherings, but South Carolina's Melissa Dulaney thought about them anyway. So much so that she launched Southern Tribute, a boutique company that now produces a chic line of napkins, napkin rings, acrylic match strikes, and tissue and towel boxes. Her sophisticated style adds funk and flirt to the table. southerntributetxifs.com

FLOWERING DOGWOODS PATTERN

256.975.2542

info@truett designs.com

Huntsville, AL

I'm inspired constantly by the world around me, my travels, nature, my family and stories of my personal history. Flowering Dogwoods takes its inspiration from my personal history and my love for mixing old and new. Inspired by an estate sale find of a porcelain dogwood, this painting was a reflection of the childhood memories of my grandmother's home coupled with my love of a dogwood tree. I love to mix old and new in my home, so I knew I needed to add a touch of modern flair to really capture a reflection of how I envisioned "Flowering Dogwoods" in my space. -Truett
